

Tasking Memorandum No. 98-278

Memorandum For Commander, Defense Contract Management District West

Subject: Draft System Security Authorization Agreement (SSAA) for the Contractor information Service (CIS) (TASKING)

Date: September 2, 1998

Suspense Date: October 19, 1998

Target Audience: DCMDW-F and DCMDW-DS

Requirement(s):

- CIS is an information system hosted by your district for DCMC that is currently being reviewed in accordance with the procedures defined in DoDI 5200.40 for the DoD Information Technology Security Certification and Accreditation Process (DITSCAP).
- Individuals from Wang Government Services, a contractor providing security support to CIS for DCMC-AC, visited your organization in June for a security assessment and have had other communications with your staff. As a result, Wang has prepared a draft System Security Authorization Agreement (SSAA) which is attached. (For security reasons, the SSAA will not be posted on the DCMC Homepage)
- To help complete the DITSCAP, your Information Management and your Security staff should jointly:
 - Review the draft SSAA and provide recommended changes to this office not later than October 19, 1998. Points of Contact from both staff elements should be identified for followup actions.
 - Prepare to support the Security Test and Evaluation (ST&E) testing that will be conducted by Wang once the SSAA is finalized.
 - Prepare to implement all security enhancements that are agreed to in the final SSAA.
